

**REMARKS**

Fig. 1 is amended. Support for the amendment is provided by the originally-filed application at page 9, first paragraph. Accordingly, no new matter is entered. Please acknowledge receipt and acceptance of the amendment to Fig. 1.

The specification is amended. Pages 5, 6, 7 and 14 are amended to correct typographical errors, and therefore, no new matter is entered. For example, pages 6 and 7 have sentences deleted because such sentences were redundant.

Additionally, page 14 is further amended to delete a sentence and rewrite such sentence for clarity. Accordingly, this amendment adds no new matter.

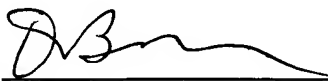

The amendments to the specification add no new matter to the originally-filed application, and therefore, such amendments should be entered.

Claims 1-19 are pending in the application for prosecution on the merits, and such examination is respectfully requested.

The undersigned is available for telephone consultation at any time.

Respectfully submitted,
